STEAMSHIP AUDITOR IS INTERVIEWED BY U. S.

Henry F. Ficke Believed to Be German Spy.

(By the International News Service.)
New York, Aug. 18.—Henry F. Ficke, auditor of the North German-Lloyd Steamship Company, arrested last night on the charge of being a dangerous alien, was interviewed today on Ellis Island, and he will remain there for the duration of the war. Ficke, who spent a night in jail in Brooklyn, took his arrest calmly.

Looks to Germany regarding the movement of American troops across the sea are the actual reason for the internment of the steamship auditor. His residence on Staten Island overlooks the waters through which German submarines had to pass, to seek other ports in connection with the leakage of information to be transmitted by the secret service operators. Ficke was an intimate friend of Capt. Koenig, of the submarine Deutschland, and was host of the commander on one of his trips to an American port.

PRICE OF HOGS GOES TO NEW HIGH MARK

Animals Bring \$19 Per Hundredweight in Chicago Market.

(By the International News Service.)
Chicago, Aug. 18.—A bullish market indicated that hogs would go still higher than the \$19 per hundredweight they reached today. This was a record. The former high mark made Friday was \$18.00.

Normally receipts are 10,000, whereas today they were only 2,000. Shipments were said to be lighter this week than at any time within the last fifty years. Cattle prices went down at the market's close. The price today was lower than at any other time during the week. Supplies were larger than last week. A record was made during the week, however, prices going up to \$15 in the open market.

Today's trading in live mutton developed prices slightly lower than the highest point reached this week but higher than last week's top. August months and yearlings closed at 50 to 25 cents advance over prices today a week ago.

The painter, Horace Vernet, had a remarkable memory for color and line and could do a portrait from memory.

BABIES WILL SUFFER UNLESS HELP COMES

Camp Good Will Needs \$2,000 for Sick Tots.

Unless the people of Washington immediately contribute gifts totaling \$2,000 to the Baby Hospital, near Camp Good Will, in Rock Creek Park, the veritable murder of 20 babies, all under 2 years of age, will be laid at the door of a passive public.

The doors of the hospital are about to close because of lack of funds. The need for money is more than urgent. The increase in cost prices of food for the slowly recovering babies, the failure to give to charities in this world-war year, the general apathy on the part of the public in the line of charities, all have united to make necessary the closing of the institution within a day or so if funds are not immediately received by the Associated Charities.

The doctor and nurses alike at the hospital unite in saying that to return the babies to their homes, if they have any now, would be murder pure and simple. Twenty-eight of the babies are in such a condition, because of lack of food, that lack of food received before they were taken to the hospital, that to remove them will be fatal.

Bathing their little pain-ridden bodies in the bright, warm, healing sunlight, breathing in the pure fresh country air, eating wholesome food that is rapidly repairing diseased bodies, those 20 little ones are happy, even though sick.

They cannot realize how near they are to being sent back to the squalid garrets and cellars that many of them came from.

These little ones are in fully as sad a plight as are the children of war-torn Belgium—the babies of America—yet contributions of American dollars even from Washington, are going day after day across the ocean.

The Associated Charities will receive contributions any time. To save these babies the people of Washington must act at once; \$2,000 is needed.

GOVERNOR OF TEXAS DEFENDS HIS RECORD

Ferguson Takes Stand in Impeachment Proceedings at Austin.

(By the International News Service.)

Austin, Texas, Aug. 18.—Explaining today why he vetoed the appropriation for the University of Texas, Governor Ferguson, testifying in his own behalf in the investigation of charges against him being made by the House of Representatives, said the constitution of Texas did not contemplate the university should be supported by legislative appropriations but solely by its available fund obtained from sale and lease of university lands set by Texas pioneers to establish and maintain the university. He said that charging the student body for actions and writings in a student publication, indicating their opposition to his attitude toward the university, he blamed the faculty for permitting the students such liberty. He contends that expenditures for maintaining the University were far greater than they should be and insisted the governor had the right to maintain a general surveillance over the regents.

The direct examination of the governor is nearly at an end and the cross examination will begin Monday.

Reserve Banks Report Resources of \$766,342,000

The total resources of the twelve Federal Reserve Banks, today were \$766,342,000.

On August 17, there were \$612,546 in Federal Reserve notes outstanding, and \$54,894 in notes held by banks. In actual circulation there were \$667,440.

On the same day, the resources of the Federal Reserve Banks totaled \$1,427,489,000; on August 10 they were \$1,424,089,000.

FINE BALL TALENT FOR POLICE GAME

Plans for Labor Day Event Are Being Moulded.

Emphatic denial was made, last night, of the statement that Washington policemen were selling tickets for the baseball game to be played Labor Day, between the Home Defense League and the police.

In New York and other large cities, policemen are permitted to sell tickets for their relief fund. In Washington, however, the police are placed before the District Commissioners and Maj. Raymond W. Pullman, chief of police.

Meanwhile, George Markward, chairman of the committee on distributing tickets to the members of the Home Defense League, prepared a sales campaign that should bring great results for the widows' and orphans' fund of the police department, even though sick.

E. J. Murphy, chairman of the committee on games, has advised General Chairman Smith that there will be a full complement of baseball talent in the line-up of the police and Home Defense teams.

R. W. Pullman, chairman of the committee on music, is arranging for a big band and other features to add to the holiday spirit that will be manifested at American League Park, Labor Day.

DONATES \$6,426,872 FOR WAR PURPOSES

Rockefeller Foundation Has Made Contributions Since Jan. 1.

(By the International News Service.)
New York, Aug. 18.—The sum of \$6,426,872 for various war purposes has been appropriated by the Rockefeller foundation since the beginning of this year. It was announced today that the sum granted being devoted to the following principal objects:

Provisions for making the American army training camps positive factors for good in the lives of the men in training.

Provisions for research and demonstrations in the field of war surgery and medicine.

Humanitarian work in the United States and abroad.

The largest gift was an unconditional one to the American Red Cross of \$5,000,000 for humanitarian work and the international commission of the Y. M. C. A. received \$100,000 for foreign military and prisoners of war work.

The Rockefeller Institute for medical research received a like sum for the building, equipping and running of a hospital under Dr. Alexis Carrel to teach new methods of war surgery and \$100,000 was given to the commission for relief in Belgium for rations to the Belgian children.

The sum of \$100,000 was appropriated to the International Health Board of the Rockefeller Foundation for cooperation with the French government.

"The Rockefeller Foundation" today's announcement said, "has during recent months devoted a large part of its resources to work in connection with the emergency growing out of the war. The trustees have decided to use not only the income but a part of the principal of the foundation funds as well."

The trustees had voted to use \$10,000,000 from time to time and it is announced that part of this principal fund has been used in making the appropriations to date.

POPE'S PEACE PLEA REJECTED BY LEAGUE

Pact to Enforce Peace Would Stamp Out Prussian Militarism.

(By the International News Service.)

New York, Aug. 18.—Prussian militarism must go. This was the conclusion reached today by the executive committee of the League to Enforce Peace, which met to discuss the peace proposals of Pope Benedict.

The following resolution, a copy of which was telegraphed to President Wilson, was adopted:

"Although the peace proposals of His Holiness, Pope Benedict, support the principle of a league of nations to enforce peace and in that respect are commendable, they are not in accordance with the League to Enforce Peace, which is a league of nations which will guarantee the future security of the world could be made effective only by the abolition of Prussian military autocracy at whatever cost. Peace made with such a government could not, as President Wilson has clearly pointed out, establish conditions of permanent peace and security."

"The League to Enforce Peace therefore urges the vigorous prosecution of the war until Prussian militarism is destroyed either by explicit force or the uprising of a German democracy."

Among those who took part in the discussion were: President Lovell, of Harvard; Herbert S. Houston, of New York; John B. Finley, of Baltimore; Dr. William F. Shuman, president emeritus of Colorado College; Hamilton Holt, editor of the Independent; Judge H. Fahey, of Boston, former president of the United States Chamber of Commerce, and LaVerne W. Noyes, a prominent Chicago manufacturer.

PURGING TEXT-BOOKS OF PRAISE OF KAISER
"Nothing favorable to the Kaiser will be left in the German text books used, at the present time, in the public school after the work of scrutinizing is finished by school officials," said Assistant Superintendent of Schools Kramer yesterday.

Mr. Kramer said that anything relating to the Kaiser would be thrown in the junk bag.

DEFENSE COUNCIL MEMBERS RESIGN
Resignations of numerous members of the Council of National Defense, which was organized yesterday and were due principally to the appointment of the War Industries Board.

The resignations have not been accepted and it is possible the committee may be asked to continue their work in an advisory capacity.

BANK CHECK STAMP PROVISION STRICKEN

Senate Eliminates Item From War Revenue Measure.

By vote of 38 to 22, the Senate yesterday struck from the war revenue bill the provision for a stamp tax on bank checks, drafts, non-interest bearing certificates of deposit and orders for payment. It has been expected that this stamp tax would yield between \$10,000,000 and \$12,000,000.

Thompson of Kansas made the move to eliminate the tax, and was supported by Underwood, of Alabama, Smart of Utah, and Norris of Nebraska. Simmons, of North Carolina, and Lodge, of Massachusetts, defended the tax.

The Senate accepted an amendment which will exempt small packages from the proposed parcel post tax. This amendment charges 1 cent for every 25 cents postage above the first cent of 25 cents. Originally, the bill proposed charging 1 cent tax on each 25 cents worth of postage.

Debate began on the second-class mail matter provisions. Hardwick, of Georgia, continued his fight to boost the tariff on newspapers and magazines. An amendment he introduced proposed a tax of 1 cent per pound on the reading matter in publications and a tax of 3 cents per pound on the part devoted to advertising, until June 30, 1918. From then until June 30, 1919, the reading rate would be 1 cent per pound, and the advertising rate 6 cents. After June 1919, the rate would be 1 cent for the reading matter and 8 cents for the advertising portions.

Broussard, of Louisiana, put in an amendment allowing the allies to import raw sugar free into this country and export the finished product.

"SUFFS" GO TO JAIL

Continued from page one.

banners before the White House but that the failure to keep traffic moving rests with the police.

District Commissioner Brownlow decided that the women convicted yesterday should go to Occoquan, rather than serve their sentences at the District Jail. The women left on the 5 p. m. train for the District workhouse.

"Ten dollars or thirty days" was the alternative offered to the suffrage pickets by Judge Pugh in the Police Court. Without an exception the six women refused to pay the fine on the ground that would be an admission of guilt. They were taken to the city jail.

Conduct Owa Defense.

The six suffragettes and their friends sat through the morning calendar of drunks and disorders until the suffrage case was called after the noon recess. The women conducted their own defense, but, as most of the evidence they sought to introduce, showing that the blocking of traffic was due to the neglect of duty on the part of the police officers rather than to the pickets, was ruled out.

The case lasted only forty minutes. Police Captains Flather and Sullivan were the only witnesses for the prosecution. They told of making the arrests because the police were unable to cope with the crowds which collected around the pickets on Pennsylvania avenue.

After their conviction the women asked to be heard and Judge Pugh opened the case long enough to permit them to make statements.

"I am not guilty," said Miss Natalie Gray, of Colorado Springs. "Neither am I at fault in not knowing the police regulations, because the police regulations have been changed nearly every day since I have been in Washington. I know I am within the law in peacefully picketing the White House, so when I am suddenly arrested for that which is my constitutional right, I know the Administration is responsible for my arrest."

Miss Lucy Ewing, of Chicago; Miss Edna Dixon, of Washington; Miss Catharine Flanagan, of Connecticut, all insisted that they were within their rights, "by peacefully petitioning the government," said Miss Flanagan.

"For a redress of grievances, by calling to the attention of the President of the United States that there is a great wrong among women of this country for the right of those who submit to authority to have a voice in their own government."

In reaffirming sentence Judge Pugh stated that the women were not advancing the cause by the methods they were pursuing and expressed a belief they were seeking personal notoriety rather than supporting their work.

Denounces Suffragists.

Infamous, outrageous, scandalous and almost treasonable—these are adjectives, Senator Myers, of Montana, yesterday applied to the actions of the suffragists who have been picketing the White House.

Introduced a bill calculated to prevent the suffragists from displaying their banners outside the Executive Mansion or anywhere else.

"The actions of the suffragists around the White House for months past," said the Western Senator, "have been a gross insult to the President of the United States and the people of the country. I must, therefore, picketing this branding the President as comparable to the Kaiser, who is the greatest autocrat, worst despot and most tyrannical ruler in the world and a murderer who brought upon the earth the greatest scourge in history."

Senator Myers said he believed the President "erred in the generosity of his heart" when he recently pardoned some of the suffragists.

"I believe they deserved the sentence of sixty days in the workhouse," he said. "They should have been compelled to serve it. And I think it is time for Congress to express its disapproval of these proceedings, and the women who conduct them."

PRESIDENT TO END DISPUTE ON COAL

Executive Urged to Take Over Distribution. Is Report.

President Wilson is expected to make some announcement early next week of the extent to which he will assume the powers given him by the food bill to control coal distribution. This was stated yesterday after the President visited the Federal Trade Commission to obtain the commission's preliminary report on its coal coal inquiry.

Following the President's call, it was stated authoritatively at the commission that government investigators had found to be justified a material reduction in the \$1 per ton at-the-mine price of bituminous coal. The commission, in its report to the President, is said to have urged him to take over the coal supply and its distribution, to control coal distribution. This was at present prices operators, jobbers and retailers are charging exorbitant figures for the product and reaping unwarranted profits. Faulty methods of distribution were also cited to make the cost of coal to the consumer still greater in many sections.

The President also discussed with the commission the prospect that is making in the steel and lumber coal investigation.

Every Shoe Must Go!

Astounding Values at HIRSH'S "End-of-Season" Sale

WOMEN'S AND GROWING GIRLS'

White Oxfords, Pumps and Sport Shoes

\$1.59

At the "End-of-Season" Price

This sale is proving the sensation of Washington, so remarkable are the values it offers. You'll do well to anticipate your Shoe needs for months to come, for you may not have such an opportunity again!

Doctor Says Crying Need Of the Woman of Today Is More Iron in Her Blood

TO PUT STRENGTH IN HER NERVES AND COLOR IN HER CHEEKS.

Any Woman Who Tires Easily, Is Nervous or Irritable, or Looks Pale, Haggard and Worn, Should Have Her Blood Examined for Iron Deficiency.

Administration of Nuxated Iron in Clinical Tests Gives Most Astonishing Youthful Strength and Makes Women Look Years Younger.

"There can be no healthy, beautiful, rosy cheeked woman without iron," says Dr. Ferdinand King, a New York Physician and Medical Author. "In my recent talks to physicians on the grave and serious consequences of iron deficiency in the blood of American women, I have strongly emphasized the fact that doctors should prescribe more organic iron—Nuxated Iron—for their nervous, run-down, sickly-looking women patients. Pallor means anemia. The skin of the anemic woman is pale, the flesh flabby. The muscles lack tone, the brain fails and the memory fails, and often they become weak, nervous, irritable, despondent and melancholy. When the iron goes from the blood of women, the roses go from their cheeks, and the blood goes from their hair."

"In the most common foods of America, the starches, sugars, table syrups, candies, polished rice, white bread, the richest of all strength builders, the eggs, crackers, biscuits, macaroni, spaghetti, tapioca, sago, farina, etc., are completely devoid of iron. In fact, the iron is removed from the iron of these foodstuffs by the refining process, and the iron is lost in the waste pipe of the water in which the vegetables are cooked and their iron is lost in the water. Therefore, if you wish to preserve your youthful vim and vigor to a ripe old age, you must supply the iron deficiency in your food by using some form of organic iron, just as you would use salt when your food has not enough salt."

"As I have said a hundred times over, organic iron is the richest of all strength builders. If people would only take Nuxated Iron when they feel run-down, instead of dosing themselves with habit-forming drugs, stimulants and alcoholic beverages I am convinced that in this way they could ward off disease, prevent becoming anemic, live longer and thereby the lives of thousands might be saved who now die every year from pneumonia, grippe, kidney, liver, heart trouble and other dangerous maladies. The real cause of weakness, which started the disease was nothing more or less than a weakened condition brought on by a lack of iron in the blood."

"On account of the peculiar nature of women, and the great drain of iron from their system at certain periods, she requires iron much more than man to help make up for the loss."

"Iron is also absolutely necessary to enable your blood to change food into living tissue. Without it, the matter how much or what you eat, your food merely passes through you without doing you any good. You don't get the strength out of it, and as a consequence you become weak, pale, and sickly looking. See how long you can work or how far you can walk without becoming tired. Next take two five-grain tablets of Nuxated Iron three times a day after meals for two weeks, then test your strength again and see how much you have gained. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in a very short time."

Dr. Ferdinand King, New York Physician and Medical Author, tells physicians that they should prescribe more organic iron—Nuxated Iron—for their patients—Says anemia—iron deficiency—is the greatest curse to the health, strength, vitality, and beauty of the modern American Woman—Says warning against use of metallic iron which may injure the teeth, corrode the stomach, and do far more harm than good; advises use of only Nuxated Iron.

make them black, run-down, and sickly looking. I have seen dozens of nervous, run-down people who were ailing all the while double their strength and endurance and entirely rid themselves of all symptoms of dyspepsia, liver and other troubles in a very short time."
